**EAN/UCC:** 8718591672682

Resistant against:

## Description

The transPorter Large - Black is a flexible yet sturdy bag that fits a professional camcorder up to 52 cm/ 20.5 inches.

Pockets of many shapes and sizes are added in the front and back pouch for easy access. In the main compartment a mesh pocket with zipper is located, together with a strap to secure your camera and 2 removable dividers. This allows you to organize your gear completely to your liking.

The bag is supplied with three accessory protection items; a pouch to store an extra lens, a cover for the lens and hood on the camera and a pouch to store small items such as cables. The items can be secured inside the bag but can also be used separately, which allows you more flexibility.

The bag is made of water-resistant 1000 denier grey Cordura® fabric. Due to its triangular shape it is easy to fold the bag together for storage, so it takes up a minimum of space when not in active use.

## Key features
