

MAVIC PRO
WHEREVER YOU GO

MAVIC PRO

| FOLDABLE AND PORTABLE

- Low 743g (with gimbal cover) weight
- Folds up to roughly the size of a water bottle
- Ready to take off within 1 minute
- Custom designed shoulder bag

| SAFE AND RELIABLE

- 24 high-performance processors, 5 visual cameras and dual-band satellite connectivity
- Accurate positioning in various environments, indoors and outdoors
- Front Obstacle Avoidance at top speeds of up to 22mph (36kph)
- Key sensor redundancy for added reliability

| OCUSYNC™ TRANSMISSION TECHNOLOGY

- Control distance up to 4.3mi (7km) (FCC) and 2.5mi (4km) (CE)*
- 1080p live video downlink
- Automatic frequency switching to maintain signal strength

*Without obstacles or interference

| CONTROL WITH MOBILE DEVICES

- Fly by phone with virtual controls
- Control distance: 262ft (80m), max height: 164ft (50m), max speed: 13ft/s (4m/s)

| FLIGHT PERFORMANCE

- Sport Mode: 40mph (65kph) max speed
- Tripod Mode: 3.6kph max speed, for accurate framing and indoor flight
- Max Flight Time: Approx. 27 minutes*

*Flying at 15.5mph (25kph) in zero wind

| 4K CAMERA AND 3-AXIS GIMBAL

- True 4K 30fps video, 12M pixel stills, 78.8° FOV
- DJI's smallest ever 3-axis mechanical gimbal
- Shutter Speed: 1/8000-8s (great for night shoots)
- Portrait Mode: vertical framing for portraits and tall buildings etc.

| INTELLIGENT FLIGHT

- ActiveTrack: Follow a subject automatically, no bracelets no trackers
- Gesture: Take a selfie with a gesture
- Precision Landing: Land exactly where you took off
- Terrain Follow: Keeps you flying at the same height above uneven terrain

| DJI GOGGLE*

- High quality imaging with two 1920x1080 LTPS screens, 85° FOV
- Low latency direct video feed from the Mavic to the goggles
- Wireless connection between aircraft, RC and goggles

*Sold separately
