

FLUID HEADS 100 MM

FOCUS 12 ✓

DESCRIPTION

The FOCUS 12 Fluid Head is the ideal support for the latest cameras weighing from 0 to 12 Kg (26 lbs). Extremely compact and lightweight, the 12 features a continuously variable fluid damping system on both pan and tilt movements and a unprecedented patented variable counterbalance which brings its range of use to cover all existing ENG cameras.

The 12 Fluid Head comes equipped with a quick release Euro-style sliding camera plate, illuminated spirit level and orientable pan bar. Its tilt angle is +/- 90° with perfect response throughout the entire tilt range.

FOCUS 12 interfaces with all 100mm bowl base tripods and supports. The extreme ruggedness and versatility together with the superior quality/price ratio make the FOCUS 12 the best possible support for News operators and videographers.
